# AVANT

The most technologically advanced range in the GM Global Solutions catalogue, featuring cutting-edge design, Raspberry Pi processor and product selection touch screen. Thanks to its advanced technology combined with enhanced user experience, the AVANT is the most effective solution on the market.

## Touch screen

- No labels.
- No pushbuttons.
- Brands and prices are always up-to-date, thanks to the remote control system.
- Clearly displayed brands and prices.
- Smart, dynamic screen guide for the notes and coins accepted.
- The product icon increases in size when pressed.
- 5 different screen configuration options in a single machine: 15, 18, 28, 40 and 60 selections.

## Advanced technology

### RASPBERRY PI

- Universal technology.
- Minimum maintenance.
- No hard drive, no moving parts, operating stability.

BILL READER

COIN CHANGE GIVER

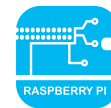

17" TOUCH SCREEN

SUPER KING CHANNELS

TELEMETRY CONNECTION WITH GMBOS

RASPBERRY PI PROCESSOR

LED LIGHTING

TOUCH CONTROL

CREDIT CARD

HOPPER

## AVANT

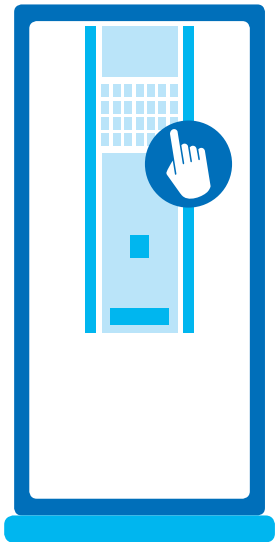

Withstands up to 50 million touches on the same spot with no failures or wear due to use.

## Telemetry + touch screen

The real-time management of all machines online, simply through an internet connection, smartphone, tablet or PC.

- Price changes.
- Brand updates.
- Screen configuration change.
- Plus all the advantages of the GMBOS telemetry system:
  - Sales reports.
  - Technical and monetary status reports.
- Stock control, replenishments and cash-ups.

## NEW DESIGN

The new elegant design, conveys an image of quality and cutting-edge technology

TOUCH CONTROL

Increased brightness.

LED lighting. Up to 7 colours

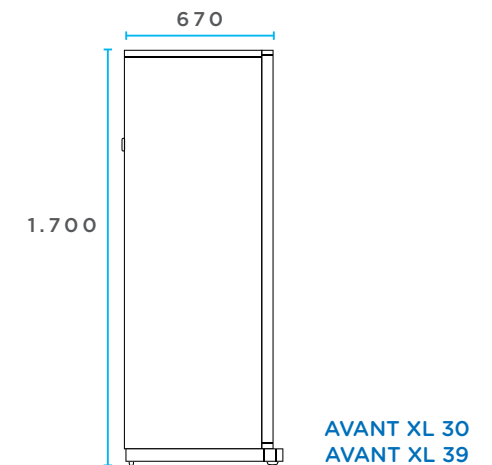

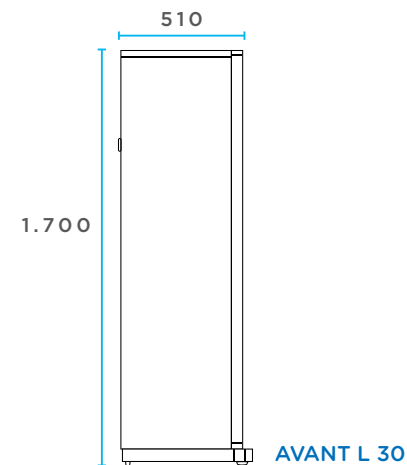

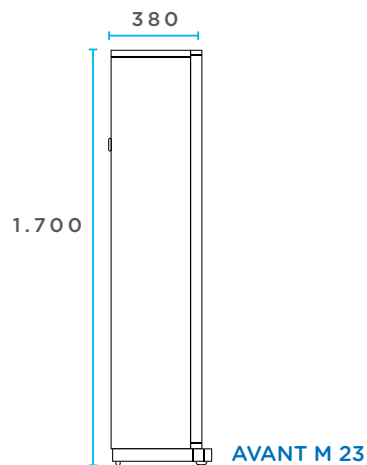

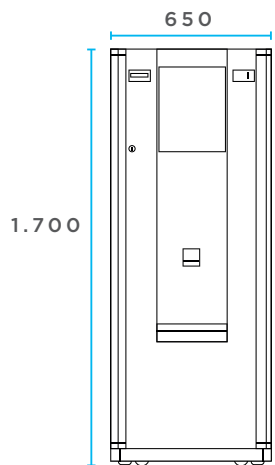

80% saving in energy consumption.

Elevated product delivery. Greater convenience for the replenisher and user alike.
