# UD UNIVERSAL DISPENSER

The UD universal dispenser range is the latest design by GM Global Solutions. This range is suitable for dispensing any type of product whatsoever.

Its aesthetically-pleasing, avant-garde design and the application of the latest technology, make this machine the perfect top-of-the-range solution for pharmacies, hotels, airports, train and bus stations and companies.

- **FLEXIBLE, MODULAR SYSTEM**  
Great adaptability to any type of product or volume.
- **PRODUCT CONFIGURATION WITH THE AUTO-DETECTION OF CHANNELS**  
An innovative system that detects the channel position, with no need to set the channels on the machine.
- **AESTHETICALLY PLEASING AVANT-GARDE DESIGN**  
Great adaptability to meet the needs of any type of business establishment.
- **TOUCH SCREEN**
  - **Additional information for customers**  
The touch screen can provide additional information on the products available for purchase.
  - **Advertising platform**  
An advertising platform for the brands, with direct impact on the end customer.
- **GMBOS TELEMETRY**  
The GMBOS telemetry system allows for the remote management of the data required for optimum stock management, perishable product traceability control, route organisation, price updates, fault alerts, etc.
